

HYPERICE PRODUCT CATALOG

/ 2020

OUR STORY

In 2010, we set out to create the world's most advanced portable ice compression device, the Hyperice. To do so, we collaborated with the world's best athletes and physiotherapists to design a product that would improve physical performance by reducing recovery time and preventing injury. This sparked our mission – to help everyone on earth ***Move Better.***

Since then, we have developed innovative vibration, thermal, percussion, and dynamic air compression technology to help further this mission.

Today, our products are recognized and used by the most influential athletes, professionals, and corporations worldwide, making Hyperice the leader in recovery and movement enhancement technology.

OUR PRODUCTS

Hyperice connects the innovation of technology to the art of movement. Our products are designed with a synthesis of science and physiology to support and advance the human condition. Beyond just changing the game, we challenge the industry and forge a new way forward.

The Hyperice App

PERCUSSION TECHNOLOGY

FEATURING HYPERVOLT / HYPERVOLT PLUS

HYPERVOLT

Handheld Percussion Massage Device
Featuring QuietGlide™ Technology

POWERFUL. QUIET. FULLY CONNECTED.

The Hypervolt delivers a symphony of power, performance, and variability. Designed to accelerate warmup and recovery, the Hypervolt uses QuietGlide™ technology to deliver three speeds of powerful rapid percussion almost silently. The quietest percussion massage device you can find, now fully connected for automated use with the Hyperice App.

BENEFITS

- Improves range of motion and flexibility
- Promotes circulation
- Reduces muscle soreness and stiffness
- Enhances muscle performance

TECH FEATURES

- Brushless high-torque 60 W motor
- Patented QuietGlide™ technology
- 3 speeds (30Hz / 40Hz / 53Hz)
- Up to 3200 percussions per minute
- 5 interchangeable head attachments
- 24 V rechargeable lithium-ion battery (3+ hrs of use per charge)
- Patented pressure sensor (3 levels)
- Lightweight, easy to use (2.5 lbs)
- TSA approved for carry-on

WHAT'S INSIDE

- 1 Hypervolt
- 2 Head attachment pouch
- 3 AC cable
- 4 Power supply
- 5 Head attachments:
Fork, Ball, Cushion, Flat, Bullet

HYPERVOLT PLUS

Handheld Percussion Massage Device
Featuring QuietGlide™ Technology

MORE POWER. STILL QUIET. FULLY CONNECTED.

30% more powerful than the Hypervolt, the Hypervolt Plus is the strongest and most advanced percussion massage device in the world. Designed to accelerate warmup and recovery, the Hypervolt Plus uses QuietGlide™ technology to deliver three speeds of powerful rapid percussion almost silently. Seriously strong, aesthetically sleek, and now fully connected for automated use with the Hyperice App. The best of the best.

BENEFITS

- Improves range of motion and flexibility
- Promotes circulation
- Reduces muscle soreness and stiffness
- Enhances muscle performance

TECH FEATURES

- Brushless high-torque 60 W motor
- Patented QuietGlide™ technology
- 3 speeds (30Hz / 40Hz / 53Hz)

DYNAMIC AIR COMPRESSION

FEATURING NORMATEC

NORMATEC 2.0

Dynamic Air Compression with
Patented Pulse Massage Technology

TRAIN HARD. RECOVER FASTER.

Normatec 2.0 works as both a high tech warmup and a dynamic way to recover faster post-workout. Engineered to bring world-class recovery to athletes of all levels, Normatec 2.0 also features a Bluetooth® enabled app, allowing you to integrate your recovery session seamlessly into your training plan and control your session directly from your phone.

BENEFITS

- Increases blood flow / circulation
- Promotes healing and recovery
- Decreases muscle fatigue after acute exercise
- Improves range of motion / flexibility (studies show)
- Lessens pain sensitivity

TECH FEATURES

- Color display panel
- 7 intensity levels
- Customizable time, pressure, and zone settings
- Zone Boost feature
- Compact, lightweight control unit (3.6 lbs)
- 12 V power and rechargeable lithium-ion battery
- Reinforced, durable construction (attachments)

NORMATEC 2.0 LEG SYSTEM

The Normatec 2.0 Leg System uses dynamic air compression and patented Pulse technology to flush out soreness and bring oxygenated blood to the part of the body furthest from the heart.

NORMATEC 2.0 LOWER BODY SYSTEM

Home to some of your most used muscle groups, the lower body gets a lot of activity and therefore needs a lot of recovery. The Normatec 2.0 Lower Body System brings compression and patented Pulse technology to over half your body.

WHAT'S INSIDE

- 1 Leg attachments (2)
- 2 Normatec 2.0 Control Unit
- 3 Hose
- 4 Power supply
- 5 Additional plug adapters (3)

WHAT'S INSIDE

- 1 Leg attachments (2)
- 2 Hip attachment
- 3 Normatec 2.0 Control Unit
- 4 Hose
- 5 Power supply
- 6 Additional plug adapters (3)

NORMATEC 2.0 FULL BODY SYSTEM

When it comes to a more effective warm up or recovery for a full body workout, the Normatec 2.0 Full Body System reigns supreme. A combination of leg, arm, and hip attachments helps circulate oxygenated blood to all your extremities so you can skip the soreness and build muscle faster.

WHAT'S INSIDE

- 1 Leg attachments (2)
- 2 Arm attachments (2)
- 3 Hip attachment
- 4 Normatec 2.0 Control Unit
- 5 Hose
- 6 Power supply
- 7 Additional plug adapters (3)

NORMATEC 2.0 PRO

Dynamic Air Compression with
Patented Pulse Massage Technology

THE NEXT LEVEL

The 2.0 Pro takes the Pulse technology to the next level with highly customizable programming options and a sophisticated touchscreen display. It also features a Bluetooth® wireless technology enabled app, allowing you to integrate your recovery session seamlessly into your training plan and control your session directly from your phone. The Normatec 2.0 Pro recovery system brings you cutting-edge connectivity and powerful results in a compact, modern design that travels well and is built to last.

BENEFITS

- Increases blood flow / circulation
- Promotes healing and recovery
- Decreases muscle fatigue after acute exercise
- Improves range of motion / flexibility (studies show)
- Lessens pain sensitivity

TECH FEATURES

- Touchscreen color display panel
- 10 intensity levels
- Preprogrammed rehab modes: Recovery, Flush, Rehab, Custom
- Customizable time, pressure, and zone settings
- Zone Boost feature
- Compact, lightweight control unit (3.6 lbs)
- 12 V power and rechargeable lithium-ion battery
- Reinforced, durable construction (attachments)

NORMATEC 2.0 PRO LEG SYSTEM

The Normatec 2.0 Pro Leg System uses compression and patented Pulse technology to flush out soreness and bring oxygenated blood to the part of the body furthest from the heart.

VIBRATION TECHNOLOGY

FEATURING VYPER 2.0 / HYPERSPHERE / HYPERSPHERE MINI

VYPER 2.0

High-Intensity Vibrating Fitness Roller

THE GAME CHANGER

Strong, sleek, and durable, The Vyper 2.0 is the world's most powerful vibrating fitness roller. Featuring all the traditional circulation and relaxation benefits of foam rolling amplified by powerful three-speed vibration, the Vyper 2.0 takes rolling to another level.

BENEFITS

- Enhances muscle performance
- Improves range of motion and flexibility
- Promotes circulation
- Reduces muscle soreness and stiffness

TECH FEATURES

- Digital circuitry control
- 3 speeds (48Hz / 60Hz / 72Hz)
- Rechargeable lithium-ion battery (2+ hrs of use per charge)
- Dual zone exterior (smooth and grooved)
- Eco-friendly, polypropylene foam
- TSA approved for carry-on

WHAT'S INSIDE

- 1 Vyper 2.0
- 2 Power supply
- 3 Additional plug adapters (2)

HYPERSPHERE

High-Intensity Vibrating Massage Ball

UNLOCK YOUR BODY

Intensive and comprehensive, the high-intensity vibrating Hypersphere can be used for trigger point release on your tightest muscles so you can recover faster and move better.

BENEFITS

- Enhances muscle performance
- Improves range of motion and flexibility
- Promotes circulation
- Reduces muscle soreness and stiffness

TECH FEATURES

- Digital circuitry control
- 3 speeds (45Hz / 68Hz / 92 Hz)
- Rechargeable lithium-ion batteries (2+ hrs of use per charge)
- Dual exterior for grip and balance
- TSA approved for carry-on

WHAT'S INSIDE

- 1 Hypersphere
- 2 Power supply
- 3 Additional plug adapters (2)

HYPERSPHERE MINI

Compact Vibrating Massage Ball

POWER MEETS PORTABILITY

Perfect for travel, the TSA carry-on approved Hypersphere Mini targets your tightest areas with precision to help you move better wherever you roam.

BENEFITS

- Enhances muscle performance
- Improves range of motion and flexibility
- Promotes circulation
- Reduces muscle soreness and stiffness

TECH FEATURES

- Digital circuitry control
- 3 speeds (42Hz / 52Hz / 62Hz)
- High intensity vibrating core
- Patented design with textured silicone exterior
- Rechargeable lithium-ion battery (2+ hrs of use per charge)
- Lightweight, compact size (1 lb / 3.5")
- TSA approved for carry-on

WHAT'S INSIDE

- 1 Hypersphere Mini
- 2 Desktop stand
- 3 USB cable

THERMAL TECHNOLOGY

FEATURING VENOM

VENOM

Wearable Vibration + Heat

WRAP WITH WARMTH

The Venom is a digitally connected wearable device that combines heat and vibration to warm, loosen, and relax stiff muscles. Encouraging circulation and pushing out soreness, the Venom features a premium neoprene compression wrap that holds heat and vibration right where you need it most.

BENEFITS

- Relaxes tense muscles
- Promotes circulation
- Reduces joint pain and stiffness
- Increases body temperature

TECH FEATURES

- Digital touch screen control
- Nano-technology heat with 3 adjustable temperature levels: 130°F (55° C) / 145° F (63° C) / 160° F (72° C)
- 4 vibration pods with variable sequences
- 18 V rechargeable lithium-ion battery
- Premium Plush™ neoprene wrap
- TSA approved for carry-on

VENOM BACK

The Venom Back is effectively a full body treatment. With the heat and vibration focused on your core, oxygenated blood circulates above and below to reach all your limbs.

VENOM LEG

The Venom Leg is made for recovery on-the-go. Walk, bend, and stretch with it on to amplify blood circulation and heat distribution.

WHAT'S INSIDE

- 1 Venom Back
- 2 Additional plug adapters (2)
- 3 Power supply

WHAT'S INSIDE

- 1 Leg wrap
- 2 Venom Pod
- 3 Additional plug adapters (2)
- 4 Power supply

VENOM RIGHT SHOULDER

The Venom Right Shoulder is designed to focus heat and vibration therapy to one of the most used yet often forgotten body parts. The treatment relieves upper neck and back tension and increases flexibility and range of motion for your arms.

WHAT'S INSIDE

- 1 Right shoulder wrap
- 2 Venom Pod
- 3 Additional plug adapters (2)
- 4 Power supply

VENOM LEFT SHOULDER

The Venom Left Shoulder is designed to focus heat and vibration therapy to one of the most used yet often forgotten body parts. The treatment relieves upper neck and back tension and increases flexibility and range of motion for your arms.

WHAT'S INSIDE

- 1 Left shoulder wrap
- 2 Venom Pod
- 3 Additional plug adapters (2)
- 4 Power supply

ICE COMPRESSION TECHNOLOGY

FEATURING ICT

ICT

Ice Compression Technology

ICE WITH AN UPGRADE

The product that started it all. A machine washable premium neoprene wrap uses pro-level compression to hold an ultra thin antimicrobial ice cell wherever you need it most. The ice cell features a patented air-release valve to keep the ice in place for extra cold surface contact. Designed in collaboration with the world's best athletes, the ICT takes this recovery staple into the future.

BENEFITS

- Air-release technology improves surface contact, surface area, and compression
- Reduces muscle, nerve, and joint pain
- Decreases swelling and blood flow
- Decreases muscle spasms

TECH FEATURES

Compression Sleeve Features

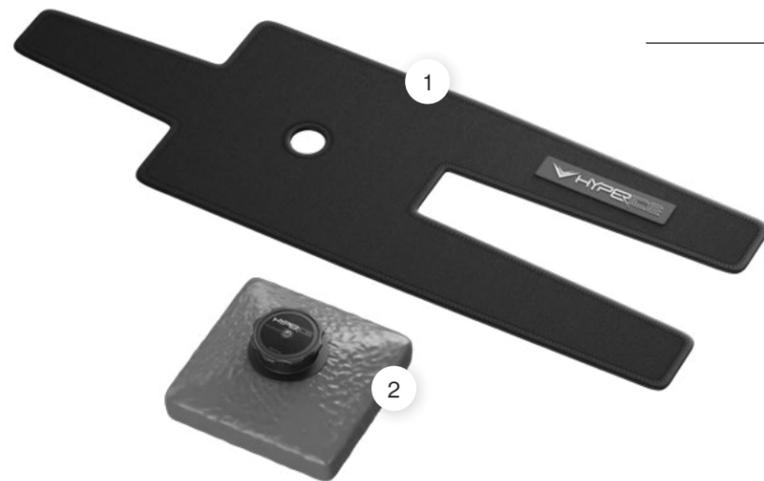

- 3mm premium grade Plush™ neoprene wrap
- Non-restrictive design allows for greater mobility during icing
- Provides optimal compression with a comfortable fit
- Machine washable

Ice Cell Features

- Patented air-release valve allows for maximum compression
- Wide-mouth opening with watertight seal
- Ultra thin antimicrobial cell "skin" for rapid cold transfer
- 10" X 10" icing surface area

ICT UTILITY

The ICT Utility is the most versatile ICT wrap. King of all trades, it can be used on ankles, elbows, wrists, shins, and forearms. It can also be used for smaller body frames on knees and legs.

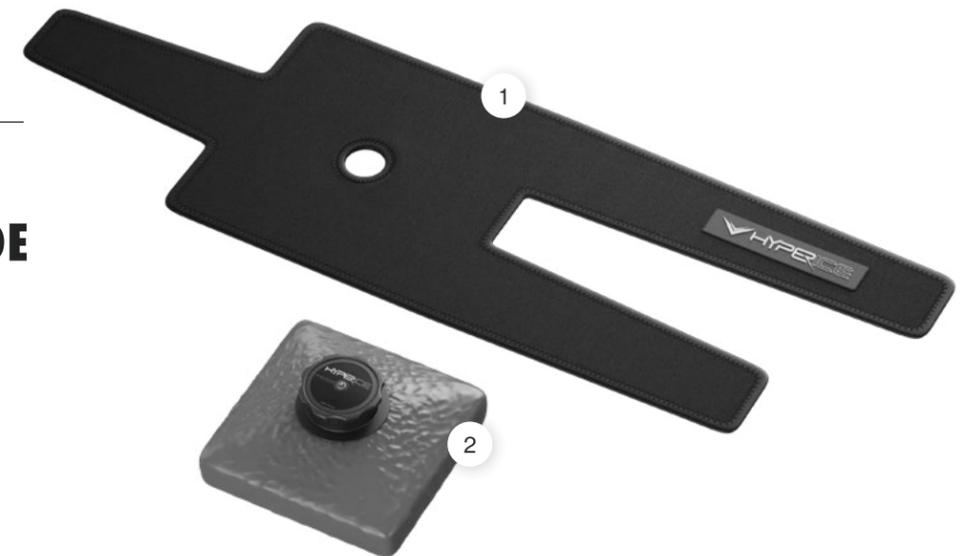

WHAT'S INSIDE

- ① Utility wrap
- ② 10" x 10" ice cell

ICT KNEE

The ICT Knee wrap is made to support motion - walk it out, bend and stretch as desired while wearing the ICT Knee wrap. You're free to go wherever you like while still giving your body the treatment it needs.

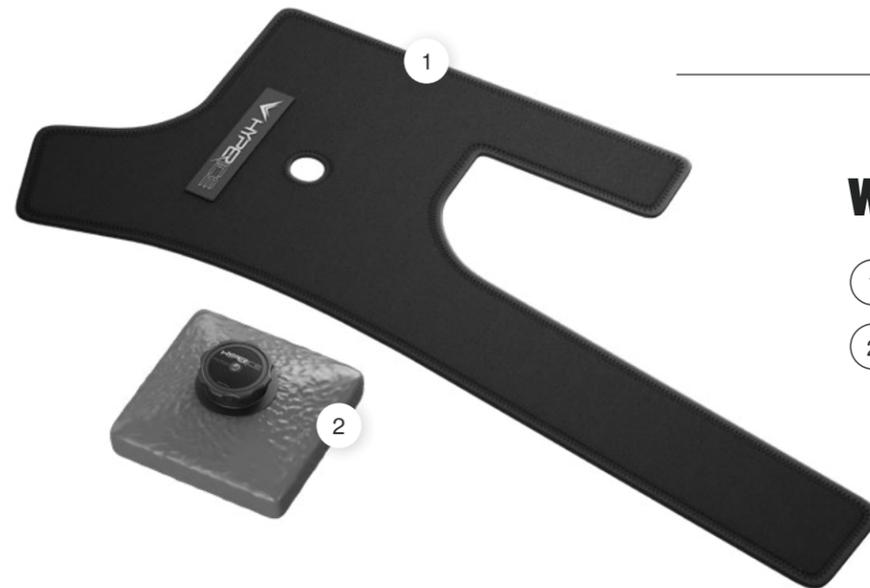

WHAT'S INSIDE

- ① Knee wrap
- ② 10" x 10" ice cell

ICT RIGHT SHOULDER

The ICT Right Shoulder lets you ice hands free. Where previously one arm had to hold the ice for the other, rendering both arms temporarily immobile, the ICT Right Shoulder provides a wrap-and-go treatment so you can get back in the game faster.

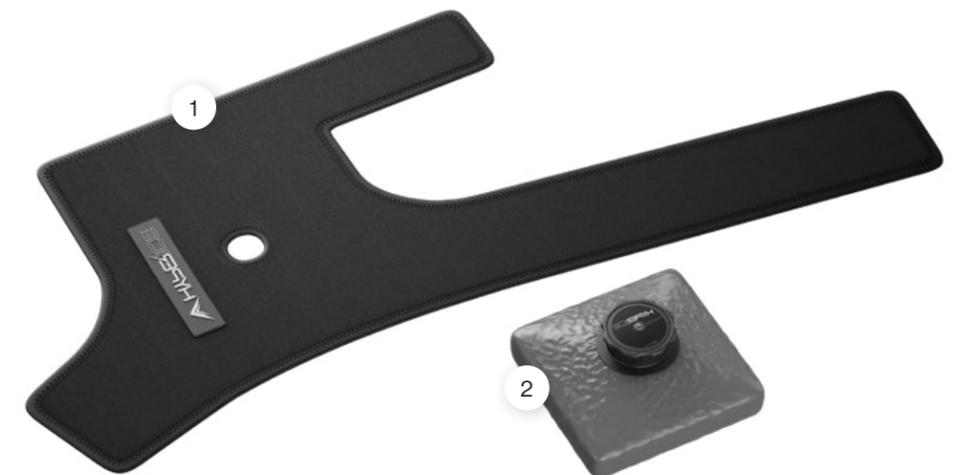

WHAT'S INSIDE

- 1 Right shoulder wrap
- 2 10" x 10" ice cell

ICT LEFT SHOULDER

The ICT Left Shoulder lets you ice hands free. Where previously one arm had to hold the ice for the other, rendering both arms temporarily immobile, the ICT Left Shoulder provides a wrap-and-go treatment so you can get back in the game faster.

WHAT'S INSIDE

- 1 Right shoulder wrap
- 2 10" x 10" ice cell

ICT BACK

The ICT Back puts you in control of icing the most notoriously hard-to-reach area of your body. You can enjoy free range of movement and independence with the ability to effectively wrap your back and ice sore or injured muscles.

WHAT'S INSIDE

- ① Back wrap
- ② Compression belt
- ③ 10" x 10" ice cell

DIGITAL TECHNOLOGY

FEATURING THE HYPERICE APP

THE HYPERICE APP

Health & Wellness App

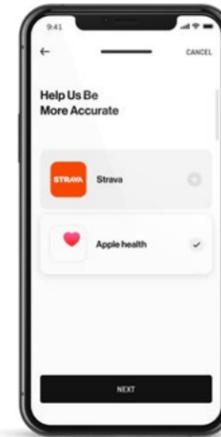

A CONNECTED WORLD. THE NEXT GENERATION OF HYPERICE.

Transform the way you move with the latest innovation by Hyperice. Powered by HyperSmart™, the Hyperice App seamlessly blends your physical and digital activity to create an experience entirely customized to you. Connect to health and wellness apps, follow guided routines, operate your Hyperice Bluetooth® devices, and get exclusive content from top pros.

CONNECT TO HEALTH & WELLNESS APPS

Get the most out of the Hyperice App by connecting to Strava® and Apple® Health, with more coming soon. Receive recommendations for routines based on your movement and track your activity stats, warmup, recovery, and daily maintenance all in one place.

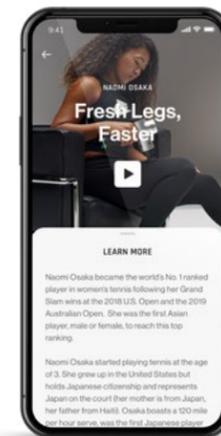

GUIDED WARMUP, RECOVERY, AND MAINTENANCE ROUTINES

Professionally curated routines from Hyperice experts, designed to help you move better.

EXCLUSIVE CONTENT FROM TOP PROS

Follow along as the world's best athletes, trainers, and physiotherapists guide you through their exclusive routines and share personal tips.

OPERATE YOUR BLUETOOTH® DEVICES

Pair your Hyperice Bluetooth® device, begin a routine, and let HyperSmart™ do the thinking. The speed will automatically adjust as you follow along with the guided routine so you can focus on your warmup or recovery.
